

School Nursing Services

Because every school *deserves*
a *healthy* student body

Available for Grades K-12!

Maintaining good physical health is a critical
component of any student's ability to learn.

At Catapult Learning, we believe that the physical well-being of your students — and the success of your school — go hand in hand. That's why we offer a state-compliant nursing services program that's fully customizable, enabling you to choose a level of service and staffing that aligns with your needs and funding resources.

Whether you want to fine-tune your existing nursing program, or introduce a turnkey plan that eases your administrative burden, we can help by offering...

-  Health record maintenance
-  Professional health monitoring
-  Prevention and intervention guidance
-  State-mandated screenings, including vision, hearing, and more
-  Services for ill and injured students
-  School personnel education of relevant medical issues

Staffing Options:

- Certified Nurses
- Program Directors & Supervisors
