## Lazarus Goes **GOLD**...

Lazarus is a 10th grade student who has worked extremely hard climbing the level system. Dating back to last school year and over the summer, he has been a model student and has reached **GOLD** level. He has been a tremendous help around the school by helping staff out with various tasks as well as taking the lead on a lot of school projects. Here are a few words from Mr. **Gold** himself on the key to reaching his goal:

**“It was simple. I made sure I did all my work and limited the time I was wasting in time out. Stayed on task and followed my teachers directions. The most important, I asked staff for help when I would get mad or upset about stuff.”**

His instructional team has praised him on his work ethic as well as his determination to keep his grades up.
