

VIRTUAL PROFESSIONAL LEARNING

AT-HOME VIRTUAL SOLUTIONS

Provide teachers and leaders with flexible opportunities and powerful tools for growth

Catapult Learning's virtual professional learning solutions provide teachers and leaders with the same research-based learning opportunities as our traditional in-person offerings. Utilizing robust collaboration platforms, our Professional Development Specialists facilitate online professional learning to build the capacity and expertise of individuals and teams.

COACHING

WORKSHOPS & INSTITUTES

PRE-RECORDED WEBINARS

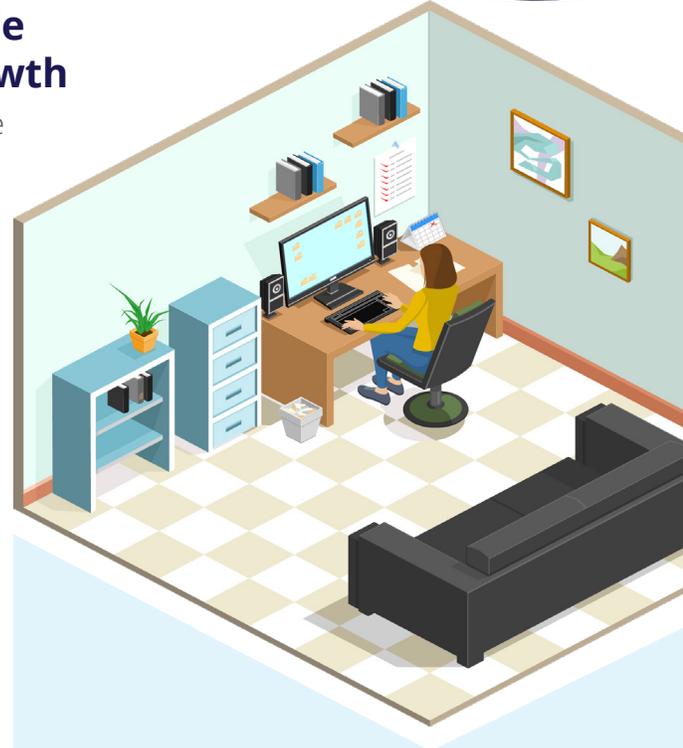

Our virtual professional learning solutions offer customized, collaborative, and relevant learning experiences that:

- Are grounded in empirical theories and models of learning
- Encourage active participation
- Align with student outcome, individual educator and organizational learning goals
- Are designed and presented by skilled online facilitators

VIRTUAL COACHING

Virtual, collaborative practices with the expertise and impact you expect from traditional coaching

Virtual coaching offers instructional leaders and teachers another avenue for pursuing professional growth and mitigates the isolation professionals might be feeling. Virtual coaching support is personalized to individuals' needs. Sessions are collaborative and can take place in one-on-one or small group sessions.

NATIONAL TEAM OF HIGHLY QUALIFIED EDUCATORS

Our coaches are highly experienced K-12 educators who possess expert knowledge in a range of research-based strategies in addition to being skilled online facilitators.

150+ Highly qualified K-12 Professional Development Specialists

Receive ongoing professional development and continuous monitoring

OUR COLLABORATIVE APPROACH

Catapult Learning's team will partner with you to define program goals, identify participants, and establish key performance indicators designed to measure program impact.

VIRTUAL WORKSHOPS & INSTITUTES *Interactive and thought-provoking online webinars*

Our virtual workshops are provided in a traditional webinar format with added activities to foster engagement and interactivity every 10-15 minutes. Workshops are hosted by a presenter and a moderator for optimum learning and can accommodate 5-250+ participants.

To promote deeper learning on a topic, we suggest combining workshops for a multi-day institute or series. Through this more-sustained exploration, participants have the opportunity to acquire a broader range of knowledge and skills.

Interactive Elements Enhance Engagement

Interactivity will be embedded into every virtual workshop approximately every 10-15 minutes using a variety of tools to enhance engagement and participation.

Annotation Feature

Allows both facilitator and participants to write or draw on-screen during each workshop

Whiteboard

Provides a vehicle for direct instruction and modeling, as well as a means for gathering group-think and affirmations

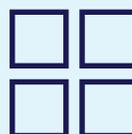

Polling

Solicits real-time feedback/thinking from participants

File Sharing

Enables facilitators to add files in the chat window for real-time participant download

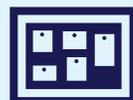

Breakout Rooms

Allows the facilitation of small-group collaboration, activity, and discussion

Collaboration Apps

Enables collaboration on activities and creation of important artifacts of participant learning

Padlet

Facilitates online collaboration and discussions, generating critical checks for understanding

The privacy and security of Catapult Learning customers, students, and employees is our priority. We continue to take extensive measures to safeguard and secure information, including having dedicated internet security experts on staff, continually upgrading software and systems, and providing ongoing training to staff.
